

Prospectus for Allied Health Professional Courses 2017

VISION : That they may have life and life in its fullness

Working for a just and healthy society since 1905

**Christian
Medical
Association of
India**

About CMAI

Christian Medical Association of India (CMAI) is national network of Christian Healthcare Institutions and Christian Healthcare Professionals since 1905. It was established as Medical Missionary Association (MMA), a forum supporting each other to be professionally, socially and spiritually fruitful. It was renamed as Christian Medical Association of India in 1926.

It is a national health NGO committed to promote a just and a healthy society irrespective of religion, economic status, caste and gender. CMAI is the official health arm of the National Council of Churches in India (NCCI).

SKILL DEVELOPMENT

With the emerging need of skill development, CMAI aims to train youth from rural and urban India with speed and high standards in order to achieve the country's vision of a "Skilled India". Through its existing network, CMAI has initiated for multi-level engagement and more impactful implementation of skill development efforts.

FORMAL EDUCATION

CMAI has been contributing extensively to train health professionals since the year 1927. The current activities under formal education come in different categories which are:

Nursing: CMAI has established two nursing boards namely, Board of Nursing Education South India Branch (BNESIB) and Mid-India Board of Education (MIBE) which are recognized by the Indian Nursing Council.

Post graduate training: CMAI offers post graduate courses through Christian Academy of Medical Science (CAMS) in general practice and one year National Fellowship in Palliative Medicine (NFPM) and Nursing (NFPM).

Pastoral Training: CMAI offers pastoral care Diploma courses such as Clinical Pastoral Counseling (DCPC) and Pastoral Healing Ministry (DPHM) and 3 weeks short term courses on spiritual care to the sick and suffering to create health, healing and wholeness a reality for the society.

Allied Health Sciences (Paramedical): CMAI also renders 27 allied health discipline courses through training centers under Central Education Board (CEB) of CMAI.

Content

Section 1

- ❖ Introduction to CMAI AHP course
- ❖ List of Courses offered by CMAI under Central Education Board in Allied Health Sciences
 - Diploma Courses
 - Post Graduate Diploma Courses
 - Certificate Courses
 - Tutor Courses
 - Distant Learning Courses

Section 2

- ❖ Application Process: Instruction and Guidelines for Application For Admission (training committee wise) &
- ❖ List of Training Centers
 - i. Anaesthesia Technology Training Committee
 - ii. Counselling and Addiction Therapies Training Committee
 - iii. Diabetic Education and Podiatry Training Committee
 - iv. Dialysis Technology Training Committee
 - v. Electrophysiology & Pulmonology Technology Training Committee
 - vi. Gastrointestinal Endoscopy Therapeutics Technology Training Committee
 - vii. Laboratory Training Committee
 - viii. Medical Radiation Technologists Training Committee
 - ix. Medical Records Training Committee
 - x. Ophthalmology Technology Training Committee
 - xi. Urology Technology Training Committee
 - xii. Laws on Hospital Administration Course Committee

Section 1: Introduction to CMAI AHP course

The Christian Medical Association of India is pioneer in providing quality education in Allied Health Sciences since 1927. The Central Education Board (CEB) coordinates the training courses approved by CMAI. The CEB consists of representatives of CMAI executives and conveners of training committees. The function for Conveners of various training committees is to organize and conduct various training programs. The list of training committees and respective conveners are provided here.

Anaesthesia Technology Training Committee (ATTC)	
Dr Shaloo Ipe Convener MOSC Medical College Kolenchery, Ernakulam District Kerala - 682 311	Tel: (0484) 30555 (O) (0484) - 2761066 (R) Mob:09495126722 E-mail: shaloo_ipe@yahoo.com

Courses offered by CMAI under Central Education Board in Allied Health Sciences

1. Diploma Courses

- Diploma in Anaesthesia and Critical Care Technology
- Diploma in Diabetes Education & Podiatry Technology
- Diploma in Dialysis Technology
- Diploma in Electrophysiology & Pulmonology Technology
- Diploma in Gastro Intestinal Endoscopy Therapeutics Technology
- Diploma in Medical Laboratory Technology
- Diploma in Imaging Technology
- Diploma in Medical Record Technology
- Diploma in Ophthalmic Technology
- Diploma in Urology Technology

Duration: Two years

2. Post Graduate Diploma Courses

- PG Diploma in Counseling and Addiction Therapies
- PG Diploma in Histopathology Techniques
- PG Diploma in Medical Microbiology
- PG Diploma in Dermatology
- Post Graduate Diploma in Nuclear Medicine Technology

Duration: One year

3. Certificate Course

- Certificate Course in Human Resource Development in Counseling Skills
- Certificate course in Optometry

Duration: One Year

4. Tutor Course

- Tutor Course in Advanced Medical Laboratory Technology and Teaching Methods.
- Advance Level Tutor Diploma in Medical Record Technology

Duration: One year

5. Distance Learning Courses

- Certificate Distant Learning Course on Laws on Hospital Administration

Duration: One year

Section 2 : Application Process: Instruction and Guidelines for Application For Admission (training committee wise) & List of Training Centers

ANAESTHESIA TECHNOLOGY TRAINING COMMITTEE

The aim of the Anaesthesia Technology course is to train personnel to ably assist the Anaesthesiologist in the operation rooms, in the intensive care units, labour suites etc. With the increasing complexity of anaesthesiology and the intensive use of technology it is essential to have skilled help handy to aid the anaesthesiologist in various procedures in the operation room. The care of the patients in various intensive care units and on the ventilators is the responsibility of the anaesthesiologists. Experienced technicians help to ensure that the quality of care given is maintained and to meet this need CMAI offers a diploma in Anaesthesia Technology.

1. Diploma in Anaesthesia and Critical Care Technology

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year (plus 6 months internship) Diploma in Anaesthesia and Critical Care Technology care:** Plus 2 or equivalent with Physics, Chemistry and Biology.
Age: Candidate should not be more than 22 years of age on 15th June.

List of Training Centers

COUNSELLING AND ADDICTION THERAPIES TRAINING COMMITTEE

CMAI recognizes the importance of counseling, mental health and addiction. and started this course in 1994. Many hospitals and deaddiction centers do not have counsellors who are trained in mental health, deaddiction and therapies. In practice counseling is a professional relationship that empowers diverse individuals, families and groups to accomplish mental health, wellness, education and career goals. Today our life world is increasingly becoming more interconnected. This globalization highlights the need for highly trained mental health professionals to address trauma, addiction, depression, academic and career concerns in clinics, hospitals, schools, and universities.

1. Post Graduate Diploma in Counselling and Addiction Therapie
2. Certificate course in Human Resource Development in Counselling Skills

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Post Graduate Diploma in COunselling and Addiction Therapies:**
 - i. Graduate or post-graduate degree in social sciences / psychology or equivalent OR from health field having a graduate degree in Nursing / Doctors OR Graduate degree in theology / Pastors
 - ii. Should have satisfactory work history.
 - iii. Sponsored by a church or organisation, committed to the career through past voluntary services.
 - iv. Must be physically and mentally healthy.
 - v. Preference will be given to recovered chemically-dependent persons – alcoholic or drug addict – with two years of continuous sobriety with at least a graduate degree and work experience.

Age: Candidate must complete 17 years

List of Training Centers:

Post Graduate Diploma in Counselling and Addiction Therapies	
1	<p>TRADA Institute of Social Sciences Manganam PO Kottayam – 686 018 Kerala</p> <p>Phone: 0481-2573699/ 2573845/ 2573745 Email: joanc.mms@gmail.com, trainingtrada@gmail.com</p>

DIABETIC EDUCATION AND PODIATRY TRAINING COMMITTEE

Podiatry is a science that deals with clinical conditions of the foot and their management. In podiatry multidiscipline skills are taught and practiced. The medical conditions dealt with may vary from a simple ingrowing toenail to complicated neuropathic foot. With the increasing awareness of clinical conditions of the feet, and especially the increasing incidence of diabetes, there is an increasing need to have individuals specially trained in this area. CMAI therefore offers a course in podiatry technology to prepare personnel to meet this need since 2013.

1. **Diploma in Diabetic Education & Podiatry Technology**

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Diabetic Education & Podiatry Technology**
 1. Plus 2 or equivalent with Science subjects: Physics, Chemistry and Biology.
 2. Persons who are already in the medical field and would like to acquire skills in podiatry eg Diploma in Nursing, or Diploma in other science subjects

List of Training Center:

Diploma in Diabetic Education & Podiatry Technology	
1	<p>St. Stephen's Hospital Tis Hazari Delhi 110 054</p> <p>Phone: 011 2396 6021 Email: sshahp@gmail.com</p>

DIALYSIS TECHNOLOGY TRAINING COMMITTEE

Kidney dialysis makes the difference between life and death for those who suffer from renal failure. Dialysis technicians administer this life-sustaining procedure all in a day's work. These technicians maintain and operate the equipment used for dialysis, a process that cleanses the blood of metabolic waste products. There is an increasing need to have individuals specially trained in this area. CMAI therefore offers a course in dialysis technology to prepare personnel to meet this need since 2011.

Diploma in Dialysis Technology

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Dialysis Technology:** Plus 2 or equivalent with Science subjects: Physics, Chemistry and Biology.

List of Training Centers:

Diploma in Dialysis Technology		
1	CSI Hospital Kanyakumari Medical mission, Neyyoor, Kanyakumari 629 802 Tamil Nadu.	Phone: 9442383347 Email: csimkkm@yahoo.co.in ,

3	Morris Mathias Hospital, 355,kp road, Dr mathias nager, Naagercoil 629001, Vettunimadam, Ramavarmapuram, Tamil Nadu 629001	Phone: 090430 79906 Email:
4	MOSC Medical College Hospital Kolencherry – 682 311 Ernakulam Dist. Kerala	Phone: (0484) 3055555 Email: coordinator@moscmm.org
5	St. Stephen's Hospital Tis Hazari, Delhi 110 054	Phone: 011 2396 6021 Email: sshahp@gmail.com
6	Tiruvalla Medical Mission Hospital, P.b No: 50, Tiruvalla, Pathanamthitta Dt., Kerala - 689 001	Phone: 0469 2630144 – 46 Email: tmmhosp@satyam.net.in , hrexecutive@tmmhospital.org , contact@tmmhospital.org

ELECTROPHYSIOLOGY & PULMONOLOGY TECHNOLOGISTS TRAINING COMMITTEE

Electrophysiology is the branch of science that deals with electrical phenomena that are associated with physiologic processes. Electrophysiological tests are an invaluable aid in the diagnosis of several cardiac and nervous system disorders and diseases. Pulmonology, on the other hand, involves the study of the structure and function of the lungs independently and in association with the rest of the body. In an era of increasing technology, with an increasing number of facilities providing these specializations, there is an increasing need for technologists who can assist in providing quality care. CMAI therefore offers a course since 2004.

1. Diploma in Electrophysiology & Pulmonology Technology.

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Electrophysiology & Pulmonology Technology.**
 - I. Basic educational qualification: Pass in 10+2 or its equivalent with Physics, Chemistry and Biology from a recognized University or Board of Education.
 - ii. The candidate must have completed 17 years of age and must be less than 25 years of age on the date of commencement of the course.
 - iii. The candidate must have good knowledge of English, as the medium of instruction is English.

List of Training Center:

Diploma in Electrophysiology & Pulmonology Technology.		
1	CSI Hospital Kanyakumari Medical mission, Neyyoor, Kanyakumari 629 802 Tamil Nadu.	Phone: 9442383347 Email: csimkkm@yahoo.co.in ,

GASTROINTESTINAL ENDOSCOPY THERAPEUTICS TECHNOLOGY TRAINING COMMITTEE

Endoscopy has a big role in the development of modern gastroenterology. Modern endoscopy is certainly more therapeutic. It started with endoscopic hemostasis and has a huge impact in this difficult pathology. Interventional endoscopy is now very complex and takes a lot of time for endoscopists to learn properly these techniques. This course teaches new techniques of interventional endoscopy for those who want to assist or develop their skills in this field. CMAI offers a course since 2012.

- **Diploma in Gastrointestinal Endoscopy Therapeutics Technology.**

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Gastrointestinal Endoscopy Therapeutics Technology.**
 - i. Basic educational qualification: Pass in 10+2 or its equivalent with Physics, Chemistry and Biology from a recognized University or Board of Education.
 - ii. The candidate must have completed 17 years of age and must be less than 25 years of age on the date of commencement of the course.
 - iii. The candidate must have good knowledge of English, as the medium of instruction is English.

LABORATORY TRAINING COMMITTEE (LTC)

Medical Laboratory Technology has been a tool in the diagnosis and study of various diseases for the purpose of aiding in proper treatment. A Knowledge in the field of Clinical Pathology, Blood banking, Haematology, Microbiology, Parasitology, Bio- chemistry, General Pathology is of utmost importance for any skilled technician.

Therefore, in the ever growing medical scientific knowledge and skills, the laboratory sciences have gained importance for training of Medical Laboratory Technicians.

The CMAI offers several courses in Medical Laboratory Technology under the Laboratory Training Committee (LTC)

1. Two- year Diploma Course in Medical Laboratory Technology (DML T)
2. One- year Tutor Technician Course (DE) / Tutor Evaluation
3. Bridge Course
4. Postgraduate Courses:-
 - (a) Histopathology Laboratory Techniques
 - (b) Medical Microbiology
 - (c) Dermatology Technician

Two - year Diploma Course in Medical Laboratory Technology (DMLT)

CMAI's training in Medical Laboratory Technology was started in 1927 at Arogyavaram, Andhra Pradesh. The purpose of this course is to prepare men and women for the health sector in India by providing them the best quality of education and training and also to ensure that quality service is provided in remote areas of our country. This is an innovative, need-based and relevant training programme run by LTC and also serves as employment opportunities for the lower and medium income generating class.

It began as a certificate course but with the rapid advancement in lab science, the duration has been increased, first to one year and then to two years with a six months internship to follow.

Duration of the Course: 2 years followed by six months internship.

Minimum Qualification: Two year DMLT Course: HSC, PDC, ISU, PUC, VHSC (Lab and others) or Plus 2 or equivalent with science subjects and eligibility for admission to University or B.Sc., Degree Course; with 35 pass in not more than two attempts.

One - Year Tutor Technician Course

The one year advance level Tutor Diploma Course prepares tutor to train laboratory technicians. It updates their knowledge, upgrades the professional skill of laboratory technologists, and gives them training in teaching methodology.

Duration of the Course: 1 year

Minimum Qualification:

- a. PDC or equivalent and two years MLT Diploma with a minimum of 70% marks+6 months internship +2 years experience.
- b. PDC or equivalent qualification and CMAI Bridge Course Diploma with a minimum of 70% marks and four years experience.
- c. B.Sc., degree and CMAI Bridge Course Diploma with 70% marks and 2 years experience.

- d. B.Sc., Degree and two year MLT Diploma with a minimum of 70% marks +6 months internship and 1- year of experience.

Tutor Evaluation

This is for B.Sc., ML T & M.Sc., MLT candidates who wish to be recognised as tutors by LTC.

A One day evaluation requiring 50 per cent pass in each of

- An objective type theory paper
- Slides for reporting blood picture & also other diagnostic slides
- Microteaching or Pedagogy.

One - Year Bridge Course

The Bridge course is designed to upgrade students who have completed the one- year Diploma Course to the two year DMLT. After completion, the one year students will get Diploma in Medical Laboratory Technology of two years duration. This covers the excess syllabus in the two years' course over the old one year syllabus.

Duration of the Course: 1 year Plus 1 Semester (DE)

Minimum Qualification: CMAI 1 year Diploma in Medical Laboratory Technology

One-Year Postgraduate Diploma Course in Histopathology Laboratory Techniques

This is a one year course intended to train students in processing tissues, staining of sections for microscopic examination, autopsy techniques and preservation and mounting of specimens for display in pathology museums. They will also be trained in cytological methods which are widely used in the early detection of cancer in pathology laboratories and cancer hospitals.

Duration of the Course: 1 year

Minimum Qualification: B.Sc., in Science Subjects, including Biology (earlier, the course was an undergraduate course accepting students with plus 2 including biology, chemistry and physics)

Post graduate Diploma course in Medical Microbiology - to train B.Sc., (Science) graduates in all aspects of diagnostic microbiology.

MEDICAL RADIATION TECHNOLOGISTS TRAINING COMMITTEE

Medical Radiation Technology plays a central role in the diagnosis and treatment of patients. With advancing technologies and computerization, there are very few areas of patient care that are not supported by medical radiation technology. The technologists play an important role in ensuring that this valuable technology is used appropriately, working alongside the rest of the medical team. CMAI offers courses since 1952.

- [Diploma in Radio diagnosis Technology](#)
- [Post Graduate Diploma in Nuclear Medicine Technology](#)

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Radio diagnosis Technology:**
 - i. Basic educational qualification: Pass in 10+2 or its equivalent with Physics, Chemistry and Biology from a recognized University or Board of Education.
 - ii. The candidate must have completed 17 years of age and must be less than 25 years of age on the date of commencement of the course.
 - iii. The candidate must have good knowledge of English, as the medium of instruction is English.
- **Two year Post-Graduate Diploma In Nuclear Medicine Technology:** Pass in B.Sc, examination or its equivalent with English and Physics as main or ancillary subjects.

Certificate Required from Candidates for Admission:

- i. Birth certificate or a certificate as entered in SSLC book or Xth standard or its equivalent.
- ii. Character and conduct certificate from the Principal of the college last attended.
- iii. Mark sheets or grades of each examination passed, duly attested by the Principal.
- iv. Transfer certificate from the college last attended.

MEDICAL RECORD TRAINING COMMITTEE

Medical Record Technology is a neglected field in India. Although it is universally accepted that a good Medical Record Department is an integral part of every hospital, there are very few hospitals in India that have well-established record departments with qualified staff. Recognising the need for qualified record technicians, the Christian Medical Association of India started a Medical Record Technician Training Programme in 1982. The CMAI Medical Record Training Committee offers two courses:

- 1) Diploma in Medical Record Technology
- 2) Advance Tutor Diploma in Medical Record Technology

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Medical Record Technology:** Pre-degree/Higher Secondary/Plus Two or 12 years of schooling (in Science, Art or Commerce) from a recognized University or Board is the minimum required qualification for admission. Knowledge of typing with a speed not less than 25 words per minute is desirable.
- **One year Advance Tutor Diploma in Medical Record Technology:**
 - i. Graduates with 1 Yr CMAI-DMRT
 - ii. BMRSc (Dr. MGR Medical University or University of Pondicherry)
 - iii. CMAI-DMRT (2 Yrs)
 - iv. CMAI - DMRT (1 Yr) with 5 years working experience in reputed health care institutions
 - v. PG qualification in Health Information Management & Medical Documentation with Medical Record Science, Medical Terminology, Anatomy, Physiology, Lab Sciences, Pharmacology, Bio-Statistics, and ICD Coding as subjects and other medical record qualified persons from India and abroad may be admitted subject to the approval of the subcommittee of CMAI -MRTC. The Committee shall admit foreign nationals with desired qualifications

OPHTHALMIC TECHNOLOGY TRAINING COMMITTEE

Ophthalmology is a rapidly growing field, and the National Programme to control Blindness has helped strengthen the provision of eye care to all parts of the country. For effective and quality ophthalmic care, well-trained paramedical personnel are needed. CMAI has instituted two courses that prepare paramedical personnel in this area:

- 1) Diploma in Ophthalmic Technology (2 years)
- 2) Certificate Course in Ophthalmic Technology (1 year)

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Ophthalmic Technology:**
Plus 2 with science or 12 year schooling or PUC, pre-degree or its equivalent
Age: Candidates must complete 17 years of age.
- **One year Certificate Course in Ophthalmic Technology:**
Plus 2 with science or 12 year schooling or PUC, pre-degree or its equivalent
Age: Candidates must complete 17 years of age.

List of Training Centers:

UROLOGY TECHNOLOGY TRAINING COMMITTEE

Urology as a specialty has many aspects. There are many aspects to it ranging from office urology or outpatient care to complex reconstructive procedures. The various subdivisions are classified as Office urology procedures – cystoscopy, biopsy, Shock wave lithotripsy, Urodynamics etc. A need for a dedicated technologist was felt since the wide variety of procedures do not come under the purview of the limited nursing and surgical nursing curriculum. We had been discussing this issue at our urological society's national forum and based on this need a dedicated curriculum for a technologist was developed. This course was commenced in 2013 at CMC Vellore. This is a two year diploma under the auspices of the CMAI and is suited to develop a technologist who would work side by side with a trained Urologist.

1) Diploma in Urology Technology (2 years)

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- **Two year Diploma in Urology Technology:**
Plus 2 with science or 12 year schooling or PUC, pre-degree or its equivalent with science subjects
Age: Candidates must complete 17 years of age.

List of Training Centers:

Diploma in Urology Technology		
1	Christian Medical Center, Schell Campus, Arni Road, Vellore Tamil Nadu - 632 001	Phone: 0416-2283011 Email: msoffice@cmcvellore.ac.in
2	MOSC Medical College Hospital Kolencherry - 682 311 Ernakulam Dist. Kerala	Phone: (0484) 3055555 Email: mmmhn@moscmm.org, coordinator@moscmm.org

Laws on Hospital Administration Course Committee

Health professionals and health care institutions are increasingly subject to regulations, litigation and court cases. This course will equip them to take the necessary steps to meet regulatory requirements, prevent and protect themselves from unnecessary litigation and to seek appropriate and timely guidance. The course consists of Basic structure of judiciary in India and its functions, Civil & criminal law and its applications, Contract Law and Consumer Protection Act and its applications, various legal issues in hospital administration and possible solutions, Medical laws and its applications in hospital administration, Labour laws and its applications in hospital administration.

MINIMUM QUALIFICATION TO APPLY FOR THE COURSE

- Doctors
- Nurses
- Administrators
- Medical Record Officers
- Other Allied Health Professionals
- A graduate of any recognized university can join

Contact Class

Contact classes will be fixed at the end of the course in a centralized convenient place and examination will be conducted.

Course Fees:

Rs 10,000 per candidate, not including contact classes (boarding and lodging expenses have to be borne by the participant).

Course Methodology:

All study materials for three papers will be sent to the participants in the first six months. There will be one despatch every month. At the end of six months, an assignment will be sent to the participant and s/he will have to complete the same within the stipulated time. The second batch of remaining three papers will be taken up in the seventh month. At the end of the twelfth month, an assignment will again be given for these three papers.

For completion of the course, every candidate will have a opportunity to attend contact class for minimum two days.
