Building a just and healthy society

CMAI overview

CMAI is the official health agency of Protestant & Orthodox Churches in India. It is an association of Christian healthcare institutions and professionals committed to the ministry of health, healing and wholeness. CMAI brings together Christian Health Professionals in Fellowship and offers advisory, consultancy services as well as training programmes to promote the skill of institutes, doctors, nurses, allied health professionals, chaplains and administrators. CMAI is engaged in making health and the life in all its fullness a reality for the people of India. Building healthy and just communities is the central theme and overall objective of CMAI.

CMAI has been a training partner with Healthcare Sector Skill Council (HSSC) a unique initiative of National Skill development of corporation to start short term courses. According to the guidelines of the Healthcare Sector Skills Council (HSSC), CMAI Initiated to start the courses for training young people who have not got the opportunity to pursue any career development programme. This course is designed and conducted under the Academic Committee of AHP Section- CMAI, to encourage and build capacity of the younger generation, considering the disappointments and difficulties they face due to lack of skills and competencies. The main objective is building skill and knowledge of trainees in specific areas to result in better job prospects.

Short Term Courses

The following are the proposed courses (Certificate level):

Sl No	Name of the course	Duration	Intake Maximum
1	Medical Lab Assistant	2000 hrs	20 students
2	General Duty Assistant	420 hrs	20 students
3	Diabetes Educator	360 hrs	20 students
4	Vision Technology	700 hrs	20 students
5	Medical Record and Health Information Technician	1000 hrs	20 students

We request all our institutions/training centres to make use of the opportunity and provide job skill training to the youths. The application to start HSSC courses should reach our office by 15th of March 2016, so that the affiliation could be done in April 2016

Government Recognition For Short Term Courses

A convenor is appointed for individual courses and a training committee will assist her/him to develop a suitable curriculum and run the programme effectively. CMAI is succeeded in gaining accreditation from the HSSC which in turn will give the courses government recognition.

Institution interested in participating in STTC

The opportunity of conducting these CMAI training course is open to all institutions that fulfil the requirements designed by the Academic Committee under AHP section of CMAI and Healthcare Sector Skill Council (HSSC), subject to the condition that they are organizations committed to human resource development in the healthcare sector. These institutions are expected to abide by the rules and regulations of the CMAI/ HSSC who will then consider the recognition of training centres on receipt of a written request in the prescribed form from the centre
